

Jamo[®]
STUDIO

1966

In the fishing village of Glyngøre, Denmark, carpenter Preben Jacobsen begins building loudspeakers in his hen house. Two years later, he will bring his brother-in-law Julius Mortensen into the business. Jacobsen + Mortensen = JAMO. By 1978, one million JAMO loudspeakers will be produced.

MORE THAN 50 YEARS OF ADVANCED ACOUSTIC DESIGN

JAMO STUDIO SB 36
ALL IN ONE SOUND BAR

NOW

A high-tech audio collaborative utilizing resources from around the globe, JAMO crafts relevant products that look amazing, are easy to use and sound fantastic. Honoring our Scandinavian design roots, and focused on the modern minimalist lifestyle, JAMO delivers contemporary style with high-performance sound. Our innovative loudspeakers are ideal for the spaces where you live and play. From thundering home cinema, to powerful and beautifully integrated architectural solutions – JAMO is DESIGNED FOR LIFE.

Jamo[®]

STUDIO8 SERIES

The new Jamo Studio 8 series has been reimagined to live seamlessly in modern, premium environments. Contemporary material and finish choices – such as wood grain accents, matte vinyl finishes and magnetic woven linen grilles – accentuate the clean, minimalist lines of this European design. The Studio 8 compact cabinet designs are an ideal solution for urban living spaces around the world.

Building on classic Jamo acoustics, the new Studio 8 Series brings high design and high performance to any budget. An exclusive connection system allows easy integration of Dolby Atmos® elevation modules without the use of additional speaker wires, for a truly minimal aesthetic.

Embodying the spirit of the Jamo brand, Studio 8 series delivers contemporary design, high performance, and balanced, natural sound.

Jamo®

A 3° cabinet taper accentuates the slim design aesthetic.

Jamo

STUDIO8 SERIES

Trim rings cover fasteners around the woofers for an elegant, clean appearance.

BEAUTIFUL DESIGN AND CONTEMPORARY STYLE

Fully magnetic grilles — no mounting holes or push pins — for a clean, minimalistic front baffle design.

Large-weave linen grilles create visual interest with heavy texture. Heather gray for white models, and charcoal gray for black or walnut models.

All Jamo Studio 8 models are available in three finishes — black, white and walnut.

Wood grain accents around the tweeters, at the bases and feet give a handcrafted, natural look.

SEAMLESS
DOLBY ATMOS®
INTEGRATION

Dolby Atmos® enabled speakers deliver sound that comes alive from all directions, including overhead, filling any room with astonishing clarity, detail, and depth.

STUDIO8 SERIES

The elevation speaker's metal feet align with patent-pending integrated conductive metal contacts on Dolby Atmos enabled tower and bookshelf models. The back of the speaker has a clean design, free from any inputs or wires.

↑ Grilles slide up on S 809 and S 807 tower speakers to align with the elevation speaker. This creates a continuous, clean line for a seamless appearance.

Front-firing tube port allows for versatility in placement and enhanced, cleaner bass response.

Jamo®

COMPACT, YET POWERFUL

WaveGuide technology focuses high frequencies for dynamic, powerful sound.

Compact cabinets deliver high performance acoustics in a small footprint.

STUDIO8 SERIES

SLIM LINE VERSATILE SUBWOOFER

Shallow depth cabinets of the S 810 SUB and S 808 SUB models can be placed vertically or horizontally against the wall, or even on their side to be tucked out of sight under furniture.

A bottom-mounted amplifier provides orientation flexibility and a clean look.

90° power plug minimizes the subwoofer's footprint when placed against a wall or furniture.

INNOVATIVE
BY DESIGN

THE LEGENDARY JAMO R 909

THE PURSUIT OF PERFECTION

For over half a century JAMO has designed and engineered its products utilizing many talented, skilled and passionate people – starting with Preben Jacobsen, in a hen house in Glyngøre, Denmark. Today, our advanced acoustic research and development continues with some of the most brilliant minds in consumer electronics, creating well-designed products for many applications. We continue to innovate, honoring the principals and ideals of Preben Jacobsen and Julius Mortensen, providing high-performance sound to the places where we live, integrating beautifully into our environments.

The background of the entire page is a close-up, high-resolution image of a wood grain. The wood is light-colored, possibly oak or maple, with a prominent, wavy grain pattern. The planks are arranged in a diagonal orientation, running from the top-left towards the bottom-right. The lighting is soft, highlighting the natural texture and knots of the wood.
