Vixagon Premium panels consist of our Tech foam substrate, with a premium fabric covered face. Their unique shape has been successfully integrated into offices, hotel rooms, restaurants and meeting rooms where demand for both acoustic efficiency and elegant design co-exist.

Designed to perform mainly on medium and high frequencies, these panels provide a cost-effective solution for both ceilings and walls while satisfying a wide range of installations, based on its fire-resistance rating.

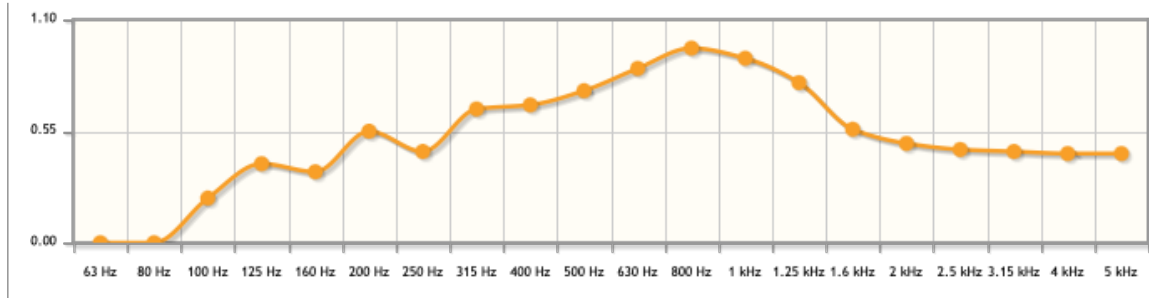

Vixagon Premium panels consist of our Tech foam substrate, with a premium fabric covered face. Their unique shape has been successfully integrated into offices, hotel rooms, restaurants and meeting rooms where demand for both acoustic efficiency and elegant design co-exist.

Available in 8 optional premium fabric colors, Vixagon Premium panels provide for a broad spectrum of applications, from an aesthetic point of view.

Designed to perform mainly on medium and high frequencies, these panels provide a cost-effective solution for both ceilings and walls while satisfying a wide range of installations, based on its fire-resistance rating.
