

# WIREWORLD®

## CABLE TECHNOLOGY

Utilizing Wireworld's new Uni-Path design, the Starlight 8 USB 2.0 audio wire provides higher fidelity than round USB cables selling for much more. With silver-clad copper conductors, Starlight's sound is rich and three-dimensional. This high-performance USB cable exceeds official USB high-speed specifications and features gold-plated USB connectors. Wireworld is a pioneer in high-end cable design and manufacturing. The Wireworld Starlight 7 USB was already a very highly regarded USB cable, and advancements in this Starlight 8 USB takes the performance even further.

### Starlight® 8 USB Audio Cable

*Innovative designs connecting passion with technology*

**USB 2.0**

Three signal conductors plus isolated power conductor

**USB 3.0**

Nine signal conductors plus isolated power conductor

**USB 3.1**

Twelve signal conductors plus isolated power conductor

Uni-Path™ design improves clarity and imaging precision

90 ohms

Composilex® 3 insulation technology controls electrostatic energy

Silver-clad OFC\* conductors improve resolution

24K gold-plated contacts ensure reliable connections

\*Oxygen-Free Copper
