DataLink Cable

## UltraPLUS™

UltraPLUS™ incorporates many of the innovations and technologies that made XLO famous, a new benchmark in quality, affordable high-performance cables. UltraPLUS is composed of single-filament, solid-core UP-OCC Ultra-Pure, Ohno Continuous Cast copper wire – wrapped in a sleek black and purple jacket. You'll hear more deeply and feel more connected to music than ever before! And everyone will appreciate their competitive pricing.

### UltraPLUS™ Cable Design

- Integrated Field-Balanced™ surface/diving winding geometry
- UP-OCC single filament, solid-core mono-crystal copper conductors
- Low-capacitance PTFE (Polytetrafluoroethylene) dielectrics
- Precision-machined connectors with 24K mil-spec gold-plated contacts

#### UP-1A Single-Ended Audio Interconnect
